

INITIAL READING ASSIGNMENTS – SUMMER 2006

May 16, 2006

Listed below are the initial reading assignments we have received to date. Not all professors submit initial assignments, so do not be concerned if there is no listing for one or more of your Summer courses.

Criminal Procedure: The Adjudicative Process - Prof. Thomas

The texts for this course are Kamisar, et. al., *Modern Criminal Procedure* (West), and the most recent Supplement (paperback). The initial assignment is to read the material listed below.

Ordinarily I don't hold students to a high level of preparation for the first class. However, this is a summer course, with only about half the classes of the fall or winter courses, so we must make every class count. My goal is not to need make-up classes, even though we will miss class for Memorial Day. Therefore, we will cover most (if not all) of the assigned material, and I expect that you will have read and be prepared to discuss it.
