“The C-K bar refresher series was a great help to jump start bar prep. It's shocking how little you remember from 1L, and the bar refresher helps jog your memory as a reminder how much you have to review. I was really glad I attended the majority of the refresher series by the time bar prep rolled around after graduation because I already had an overview of the material. With only 10 weeks between graduation and the bar, it can't be overstated how important and helpful it is to start early.”

~Katherine LaRosa, class of 2018
