- 1.) William “Hank” Bell
- 2.) Jessica Bolack
- 3.) Erica Chippi
- 4.) Jaclyn Hilderbrand (Jobs and Technology)
- 5.) Lauren Ortega
- 6.) Jackie Zablocki

William "Hank" Bell

Chicago-Kent has continued to receive a great deal of praise and recognition within the legal community for its academic excellence and innovative programs. I want to turn the SBA’s attention inward and focus on the daily concerns of the students. I will be able to represent my class effectively by listening to the concerns of my classmates and responding to them in a timely manner. This year I have strived to form relationships with students outside my own section. Interacting with many students in Sections B and C has provided me with a great foundation to represent the Class of 2011 within this well-rounded, diverse context. My campaign will focus on three main issues: First, I will work to offer more school-sponsored social events that will create a more unified, cohesive class. Second, I will continue to strengthen the relationship between the faculty and students. Third, I will improve the ability of students to voice their concerns about technology at school. I feel that I have the energy, motivation, and commitment to effectively represent the class of 2011. Thank you for taking the time to read this statement. I am really excited about the opportunity to run for SBA class representative, and I welcome your questions and concerns.

Jessica Bolack

I want to promote the interests of second year students while giving back to the whole Kent community. I was a student representative in both high school and college, so I have several years of experience. I work well in group settings. I would like to use what I have learned during my first year here at Kent to better involve all 2Ls in SBA activities, to host more community outreach programs, and to allow all of us to gain the full experience of a Kent education.

As Section B’s BarBri Representative I’ve enjoyed being a resource for you all this past semester. Because I want make year two even better than our first year together, I will actively represent our section in SBA. Yes, this means I intend to work closely with SBA to plan more phenomenal social events! But, this also means I make will make priority your thoughts, concerns, and ideas.

Serving as BarBri representative has allowed me to establish working relationships with many SBA members and representatives. I bring further experience from serving in other student organization leadership roles, in college and in the professional world. I am committed to fostering expedient and clear communication between you and SBA so that you may all get a say in what goes on here at Kent. I am looking forward to another great year with all of you! Thank you!

Jaclyn Hilderbrand (Jobs and Technology)

As 2Ls, we need Chicago-Kent to focus on productively aiding us in attaining jobs for the summer before our 3L year in order to succeed when we graduate. If re-elected, it is my goal to organize more networking events within the Chicago-Kent community to provide more opportunities in all legal fields. As a 1L representative, I actively participated in SBA meetings and never hesitated to let my voice be heard in order to represent the opinions of my peers. Furthermore, I organized the Faculty Appreciation Breakfast and two 1L social events in order to balance academics with social opportunities. I have been passionately involved with student government since elementary school, as well as took the initiative to develop a program “Real World Leadership for Students” that is now a requirement for incoming freshman at many colleges in Illinois. Vote for quality and committed representation by choosing Jackie Hilderbrand. Thank you for your vote!

Lauren Ortega

I have enjoyed representing the wants, needs, and opinions of Section A for the past year, and hope to continue this service to our entire class in the future. It gives me great satisfaction to facilitate communication between Chicago-Kent students and administration, helping us all work toward the most positive environment possible. As a 1L Rep, I have already brought small changes to the cafeteria and larger changes to the heating and cooling system in response to Section A students' requests. As a 2L Rep, I will continue to listen to your requests and needs and do everything in my power to have them met. I will always be available to hear your thoughts and concerns. Having chaired six different committees during my four undergraduate years at the University of Michigan, I know that I am ready to take on the greater responsibility of being one of the voices of our entire 2L class. I hope I get your vote!

Jackie Zablocki

I am a receptive, responsible individual and I am eager to represent my fellow students and effect some change at Chicago-Kent. While I recognize students' need to study and read for class while they are here during the day, I would also like to make Chicago-Kent an environment more conducive to study breaks, socializing, and relaxation between classes and studying. I hope to have the opportunity to pursue this goal as SBA Class Representative.
